

New contract will mean...redundancies...1 in 3 lecturers on unqualified contracts with pay cuts of £10,000...huge increase in working hours and cuts in conditions for all lecturers...

Harlow Students Deserve Qualified Lecturers
On A Fair Contract!

We the undersigned wish to express our extreme concern at the imposition of a contract that will result in redundancies and unqualified staff teaching students at Harlow College. Furthermore, we fear that the draconian contract will drive out experienced staff and undermine the stability that has led to record results at the college in recent years.

We also wish to fully endorse the view expressed recently by Bill Rammell Minister of State for Further and Higher Education and Harlow constituency MP that ***“to bring about positive change, you have to involve and engage staff in all aspects of that change”***. We, therefore, call upon Governors of Harlow College to immediately intervene to safeguard service to the community by safeguarding conditions of staff on campus.
